Palmer - Thanks for looping us in. Do you think the briefing will last two hours? Gautam and I have conflicts during the second hour. We both plan on listen in during the first hour at a minimum. I know we were included in the briefing so we can hear the technical team's plans for the assessment (not to discuss specific legal issues), but I wanted to give you a heads up that our participation in the meeting will likely be for the first hour to hour and 15 minutes. Just let me know if this presents any issues.

Thanks,
Heidi

Folks:

Attached is the revised briefing agenda which includes the HQ conference room location for the video conference.

The plan is to link DC, Anchorage and Seattle.

Denise/Dave

Attached are the briefing materials for the July 12 Executive Briefing on the BB assessment effort. The presentation reflects edits provided by you and others by the 7/6 comment deadline. Edits have been made to either the text on the slides or to the talking points in the notes section of the slides.

Rick Parkin (R10), Jeff Frithsen (ORD) and myself will be participating in the briefing from Anchorage via video conference b/c we have a BB team meeting that starts in Anchorage right after we wrap up the Executive Briefing. We are coordinating with folks in Seattle, Anchorage and DC regarding the logistics for the video conference and have a test run set up before the scheduled start for the briefing. The room location for the DC video conference is still TBD at the moment.

Rich and Jeff have asked me to lead the briefing but I will rely on them to support me throughout.

Please let me know if you have any questions. I will be in transit most of Monday July 11, in route to Anchorage.

Thanks, Palmer
